TWELFTH
STREET
DAM.The City Council Is a
Unit for Its Im-
provement.

There is a unanimous desire in the council to redeem the pledge made in all the party platforms at the recent municipal election to improve the Twelfth-street dam, although there is some division of sentiment as to how the work shall be accomplished. That it is an urgent necessity is admitted by all. It is the main and probably only artery connecting East Oakland with the other portion of the city. It is the thoroughfare over which all the traffic comes into the city from the east and south and consequently has to bear an enormous and rapidly increasing travel.

The condition of the dam can only be described as dangerous. It is growing more and more insecure while the strain on it steadily increases. It is slowly sinking and it may collapse at any time. Should it give way the city would be cut off from the territory to the south and east, and the Seventh Ward would have no means of communication with the other sections of the city except by rail. This would be disastrous to local trade and seriously embarrass many thousands of people.

All the members of the Council recognize the necessity of averting a danger which is becoming imminent, but the preliminary discussion last night in the committee showed that some of them were in favor of providing for the improvement by a special tax in the forthcoming levy. This can be done by declaring Fallon street a first avenue to be a boulevard and levying a special tax under the State law for its improvement.

This is the plan advocated by Councilman Wallace, who desires to see the work done at the earliest possible moment. Some of the other Councilmen are disposed to favor including the Twelfth-street dam in the proposed bond issue. Doran and Cuttler favor Professors' Wallace's plan.

Wallace says the Twelfth-street dam is an urgent necessity that affects the welfare of the whole city, though it is of especial importance to the residents of East Oakland.

According to the estimates of former City Engineer Miller, it will require at least \$60,000 to place the dam in proper condition, to bear the heavy traffic which passes over it. Of course it is out of the question that this large sum should be appropriated from the revenue derived from the regular city tax. The money can only be obtained by levying a special tax or by issuing bonds. The first plan is certain and more expedient.

Miller's plan is now being revised by City Engineer Turner.

He has not completed his work because of certain contingencies requiring modification. Miller estimated on a boulevard 129 feet wide from Fallon street to First avenue. The present roadway over the dam is 80 feet wide, but it has to carry the tracks of the Hayward Electric Railroad as well as the regular street traffic. To make the roadway 129 feet wide would mean the taking in of nearly 20 feet wide on the lake side and another strip of the same width on the lake side. However, the 20 foot extension on the lake side would not carry the roadway beyond the hillside line, and consequently would not mean an encroachment on the lake property.

But the property on the south side belongs to Edison Land Co. He once offered to give the city the needed 20 feet of lake front if the dam were improved according to specifications that had been drawn, but the offer has lapsed because the conditions were not complied with. Mr. Adams would probably renew his offer if he were assured that the dam would be properly improved without delay. Miller's plans are based on the city's acquiring this strip without cost. To do so, however, will add to the cost, which would require a special tax of 15 cents on the \$100 for a year. Professor Wallace thinks there would be no serious objection raised to levying such a tax in view of the importance of the improvement and the necessity for carrying it out without delay.

The improvement of the Twelfth-street dam is what the people of the Seventh Ward want and will get, said the committee. Last night, "It is something that does not admit of much further delay. If we do not take the matter in hand very soon, it is likely to force itself upon our attention in a manner that will embarrass the whole city and place East Oakland in a deplorable plight. Again and again have the citizens demanded an expert examination to reveal that it is shabby and insecure. It ought to be placed in proper condition for the traffic passing over it. All the fruit, vegetables and other produce brought in from the country on wagons passes over the dam, which is also the sole means of communication between East Oakland and other sections of the city. Patching it up is an absolute emergency. For it has been in such a state of disrepair that it must be rebuilt if we call for a bond election the bonds may be defeated, and then we are in a worse box than ever; besides that will take time. If we provide for the expense by levying a special tax, we can go ahead and be done with it. That, in my opinion, is the best solution of the question."

LEFT MOTHER FOR
YOUNG SWAINS.Girls Under Age Run
Away and Get
Married.

Last Saturday Willis G. Jones and James E. Farther, each claiming his age as 21 years, took out marriage licenses and went over to May V. Cripps and Marie Cripps respectively. The young men, who apparently half from Nashville, Tenn., claimed, in both affidavits, that the girls were of age, but the mother came over from San Francisco this morning and disputed these assertions with some heat, in the County Clerk's office. She told Deputy McMillian that her daughter Marie was only 17 years old and she wanted her at home. The other girl, while not quite 18, had her mother's consent to get married.

It was explained to the angry mother that owing to the fact that the responsibility rested with the young men, who swore to the girls' ages, the county could do nothing to restore her children. Nothing, since yesterday, has been seen of the runaway boys and girls, but they are believed to be still in Oakland.

BERKELEY TRUSTEES
HOLD A MEETING.

BERKELEY, May 14.—At a meeting of the Board of Trustees held last evening, Trustee Staats reported that he had made a trip over all the inundated streets in the city and secured a sample of the rock used in the construction of each. This he took to the State University, where it was tested and found to be very soft. This created much excitement, as the city has been paying for the best rock obtainable. The matter was referred to the Street Committee.

Hood Officer Bocciard reported that there were no new cases of smallpox at the Deaf and Dumb and Blind Institute. It was decided that the schools and city office be closed tomorrow. The merchants were also requested to close their stores.

The Clerk was directed to send a bill to the Gridland Transit Company for two lengths of hose which was run over by a car belonging to that company at the recent fire in Dwight way.

There being no further business, the meeting adjourned.

GOV. NASH WILL
GO TO BERKELEY.

The members of the Ohio Society will turn out in force tomorrow at Berkeley during the commencement exercises at the University. Governor Nash will be present with his staff and all the visiting Congressmen. On Saturday the Governor, after attending the launching of the berthship named after his State, will go around the bay as the guest of Surveyor-General Gleaves on the tug Resolute, on Sunday evening the Governor will leave for home.

GETS A WARRANT
FOR HIS PARTNER.

The details of the desperate battle fought to a finish by B. McManus and F. W. Gartner at their plant will be retold on the morning of May 32 to be retold in the Police Court.

Gartner, who was himself badly beaten about the face and head, was arrested at the time, but no complaint being sworn to the matter he was discharged.

Today, however, B. McManus appeared before Police Judge Smith and swore a complaint charging Fred W. Gartner with an assault with a deadly weapon. McManus explained that he had not been able to be out before owing to his injuries.

Later in the day Gartner swore to similar complaints against McManus and the latter's son. All parties were arrested and are out on bonds.

Judge Smith is disappointed in the result of the fight, because his father, H. J. Smith, is attorney for Gartner. In all probability he will call Justice Stetson or Justice Quinn to sit in the Police Court.

The non-union men brought here are reported to have notified the corporation that they had decided not to take out cars. No attempt has been made to operate the United Traction Company's line in Cokato, Remsahar, Troy and Watervliet, on which the employees struck when those in Albany walked out.

The improvement of the Twelfth-street dam is what the people of the Seventh Ward want and will get, said the committee. Last night, "It is something that does not admit of much further delay. TRUE REPUBLICANISM.

The President of the greatest nation on earth arrives in San Francisco and four policemen act as his guards. What greater contrast could there be between a true democracy and the nations of the rest of the world?

Some of our political opponents talk about the militarism of the United States Government, yet William McKinley, traveling from one end of the country to the other, is greeted by no imperial trappings. No streets are lined with plumed troopers. He is President of the United States, hence the ruler of the most resourceful world power; but he is also William McKinley, citizen—most honored citizen, true, but still citizen with just one vote.

When King Edward of England moves from one of his palaces to another, the streets through which he passes are lined on both sides with armed soldiers, and all traffic is suspended while the royal party rides between the lines. When the Czar of Russia or the Emperor of Germany goes from one place to another, it is in bomb-proof cars and guarded by thousands of his household guards. Even such a civil dignitary as the Lord Mayor of London is preceded by his trumpeters and cavalry on his way to his morning court. Nor except Switzerland, are other republics far different from monarchies. The President of France travels surrounded by armed soldiers, and even President Diaz of Mexico never moves a hundred feet without an escort of cavalry.

Here, however, in the United States, whether all those exiled from older nations for their political crimes and heresies—the "reds" of the anarcho-syndicalists and socialists—find their way, the Chief Executive is without danger. He moves hither and thither without fear, because he is one of the citizens, exalted, it is true, for a time, but none the less a plain citizen. No sentries guard his resting place, no troops guard his marches, because they are unnecessary.

Democracy knows no greater triumph than that afforded by the spectacle of its chief citizen traveling from place to place, moving freely among his fellow voters, and yet without a military guard of any kind. To the charge of "militarism" there is no more comprehensive and convincing an answer.

IMPORTANT FOR OAKLAND.

After the President shall have departed we do not want to waste any time in getting ready for what is, to us, a far more important visit. The River and Harbor Committee of the House of Representatives in Congress will be here next month.

No easy matter is it to become a member of this committee. The man whose name is on the roll called by its secretary must be one whose political influence is national and not limited to his district. He must be a member of the set that "runs things," and be a pretty big boy in that clique, too. Congress has no more important committee, nor does it possess one that is necessarily more disposed to hard work. It never takes junketing trip, and when it moves its tour is carefully arranged and every stop is taken after close consideration. In short, the River and Harbor Committee is different from all other committees of Congress, in that it means business. Whatever is reported by its chairman to the House is regarded as being spoken ex cathedra and is accepted as such.

It is of the utmost importance, therefore, that we prepare for the visit of this committee. The members of it can see for themselves the estuary, and after a careful inspection can speak intelligently of the peerless situation of the city as the virtual terminus of two great trans-continental railways. But let us have statistics ready. It is vital to get a favorable report from this committee, because, no matter how hard the Congressmen from California may work, they cannot obtain an appropriation unless our coming visitors agree to it. Congress is in the habit of accepting what they say without question.

Let us therefore get a favorable report, if we possibly can.

The native majority in the Hawaiian Legislature has memorialized President McKinley to remove Governor Dole. That is about the best evidence possible that he is the right man in the right place, for his refusal to permit the bold legislative extraneousness and his determination to have law-making conducted as a business proposition for the Islands instead of a money-making one for the members is what has incurred their wrath.

A Chicago beggar who was fined \$10 in the police court on Saturday fished that sum out of \$200 in silver with which his pockets were loaded. Many similar incidents might be cited to prove the prosperity of Chicago and of the country in general, and the futility of making another Bryan campaign in 1904.

General Kitchener reports that DeWitt is active again. The statement, though, is rather a reflection upon the English General himself, for DeWitt has been the opposite of active of late, what must Kitchener's 250,000 British troops have been in that they could not catch him?

A prominent New York clergyman declares that animals have souls. Even if this theory be accepted it is not likely to enlarge the scope of ministerial labors, for there is nothing to be gained by passing the collection plate around among the how-wows.

Surgeons report a remarkable case of grafting a piece of bone into a man's neck. Come to think of it, though, that's not so very extraordinary, for whenever anyone is subjected to grafting that is where he always gets it—in the neck.

PLAN TO IMPROVE THE TWELFTH STREET DAM.

Councilman Cuvellier Works Hard for a Much Needed Improvement—Views of Councilmen.

The matters of reconstructing the Twelfth street dam, extending the boulevard and surveying West Oakland park were called up in Committee of the Whole by Councilman Cuvellier last night and created a long and interesting discussion.

Mr. Cuvellier stated that his attention had been called to the fact that the bond issue was a problematical proposition, and he thought that if the present Council during its term did no more than reconstruct Twelfth street dam, putting it in proper shape once and for all, for present and future generations, it would accomplish much.

DECLARE IT A BOULEVARD.

"If we could by ordinance declare Twelfth street a boulevard from Fallon street to the beginning of the present boulevard," said Mr. Cuvellier, "we could then appropriate money from the park and boulevard fund for reconstruction of the dam. We can't take chances on bonds being issued to improve that street. It's a disgrace to any civilized community as it is now. It should be all means be attended to at once."

NO LEGAL OBJECTIONS.

Assistant City Attorney Condon stated that there would be no legal objections to declaring it a boulevard, so far as he knew.

Councilman Wallace said the improvement of Twelfth street dam is considered by all East Oaklanders as one of the most important.

Councilman Bishop said that from time immemorial Twelfth street dam has always been considered a portion of the boulevard about Lake Merritt.

"There's been some land filled in there," he said. "Why was it filled in if its not public lands, Mr. Cuvellier. It was done under your administration."

Mr. Cuvellier replied that he did not just remember.

DON'T DISCOURAGE BONDS.

Councilman Courtney said: "I believe from what I understand Twelfth street dam could be declared a boulevard; but for us to sit here—this new Council—and talk about bonds not carrying. Why not give the people a chance to say whether they want it. I say go ahead with the bond issue, include everything, and let the people decide."

"Well, I might as well go on record now as any time," said Councilman Schaffer. "I'll not vote to take fifteen cents out of the park and boulevard fund."

Councilman Wilson said in part: "I also protest against this move. I would like to see Twelfth street dam improved, but I would first like to see \$5,000 come out of the park and boulevard fund to improve Independent Square and West Oakland Park."

Mr. Bon, when asked to give his views, said:

"I am afraid to get up and express my sentiment, because Oakland has been so dead so long that if I say something it might wake up. We ought to move Oakland to Los Angeles for a week. Let her see what's being done down there."

"Los Angeles issues \$80,000 bonds for engine houses alone. The proposition carries almost unanimously. It seems to me the people of Oakland ought to wake up."

"As to Twelfth street dam, I believe first in a new City Hall, then the dam and Lake Merritt improvement.

BISHOP ON BONDS.

Mr. Bishop said: "I've always been for the boulevard, but as to bonds, if you include too many propositions you'll get nothing. We should take up three important things: The new City Hall, Twelfth street dam, complete as much of boulevard as possible, and Independent Square and West Oakland Park."

Mr. Bon, when asked to give his views, said:

BISHOP ON BONDS.

Mr. Bishop said: "I've always been for the boulevard, but as to bonds, if you include too many propositions you'll get nothing. We should take up three important things: The new City Hall, Twelfth street dam, complete as much of boulevard as possible, and Independent Square and West Oakland Park."

Mr. Bon, when asked to give his views, said:

"I am afraid to get up and express my sentiment, because Oakland has been so dead so long that if I say something it might wake up. We ought to move Oakland to Los Angeles for a week. Let her see what's being done down there."

"Los Angeles issues \$80,000 bonds for engine houses alone. The proposition carries almost unanimously. It seems to me the people of Oakland ought to wake up."

"As to Twelfth street dam, I believe first in a new City Hall, then the dam and Lake Merritt improvement.

BIG REDUCTIONS IN TAILOR-MADE SUITS

THESE special prices are the result of having too large a stock. It is necessary to carry a large and well assorted stock, so that you can have wide range of choice. It is just as necessary to hurry the going of the surplus to make room for new lines. This is the logic of the heavy reductions now prevailing and of which the following are suggestions:

Blouse Suit of new broadcloth, lined with excellent quality of silk, handsomely finished with fancy stitching. \$40.00 reduced to.....	25.00
Handsome Eton Suit, bodice effect, neat satin fold trimming; 9 festooned satin bands on skirt. \$45.00 reduced to.....	35.00
Blouse Suit made of Pondicherry; elaborately trimmed with fancy braid and stitching. \$35.00 reduced to.....	25.00
Nobby Cheviot Suit, bodice effect, richly braided; 10 rows of fancy braiding on skirt. \$32.50 reduced to.....	25.00
Smart Eton Suits all richly finished. \$27.50 reduced to.....	22.50
Eton Suits, coverts and broadcloths, all handsomely finished, silk-lined jackets. \$25.00 reduced to.....	20.00
Silk-lined Blouse Suits, made of cheviot, trimmed with braid and fancy stitching. \$18.50 reduced to.....	15.00
About a dozen smart Eton Suits. \$12.50 reduced to.....	10.00

Every garment has to be perfectly fitted and must give perfect satisfaction in every particular before we consider that a sale is closed.

BIGGI WANTS PROPERTY BACK.

Tricked by Deceit of
a Cunning Spouse.

The long line of marital trouble which has been experienced by Narciso Biggi and his former wife, Teresa Breitling, has been extended by another lawsuit, although the relations of husband and wife have been severed between them and the former Mrs. Biggi has now become the spouse of another man.

Biggi claims that he was the owner of several parcels of land in the vicinity of Lusk street, Eddy avenue and Rose Garland way in the northern part of Oakland and that he conveyed the property to his two children, aged respectively 8 and 9 years and also to his wife, reserving for himself a life interest in the property. He also asserts that in making the transfer it was specifically understood that the rents and proceeds of the property were to go to the children, that the ready was not to be considered property in common, but that it was between plaintiff and

his wife, to be considered simply as a joint tenancy.

Trouble came into the family circle and a divorce was threatened. It was then agreed that in the event of a divorce being obtained the person who did not remarry should be entitled to the whole estate.

Biggi asserts that a divorce was secured and that his former wife remarried, and has transferred her interest in the property in question to another. Biggi, therefore, wants to have the deeds returned to him because he claims he is entitled to them by reason of prior ownership and the fact that he has remained single and is living a moral life.

J. H. Smith is Biggi's attorney.

MUSICALE AT THE ALLEN HOME.

There was a large gathering in the parlor of Mr. and Mrs. Oliver P. Allen, 1234 Telegraph avenue, last evening, to attend a musical recital given by the pupils of Miss Jennie B. Tuttle, assisted by Miss May Coogan and Messrs. Frank Howard and Benjamin Tuttle. It was a strictly invitation affair, and was most enjoyable both from a musical and social point of view. A bevy of beaming young ladies hand-sown received the visitors. The numbers were few but they were well-chosen and gave great pleasure. Miss Coogan's vocal selections gave especial pleasure, and the piano performance of Miss Edith Allen, Miss Clara Sharpe and Miss Molly Mathes was marked by correctness of touch and charming expression. Following is the program:

PART I.
Sonata No. 3, for violin and piano..... Beethoven
Allegro molto expressivo, Scherzo, Allegro non troppo..... Scherzo, Allegro non troppo
Violoncello solo—Arioso..... Pepper
Mr. Frank Howard.

Rib Roast..... Gade

LETTER CARRIERS' HOLIDAY HOURS.

Force Will Welcome
Postmaster General
Smith.

Postmaster Friend telegraphed to Washington a few days ago to the First Assistant Postmaster-General for permission to participate in the receptions to President McKinley and the Postmaster-General, Clus, Emory Smith. The following reply was received this morning:

"Authority granted to observe holiday hours, 15th instant." J. M. Masten, Acting First Assistant Postmaster-General."

Under this authority the local post-offices and stations will close tomorrow at 12 o'clock noon. There will be the usual morning delivery and collections; no delivery in the afternoon; mails will be collected throughout the city during the evening.

The entire letter carrier force, to this numbering about fifty, will join the San Francisco force in escorting the Postmaster-General from his landing place to the nave in the Ferry building where he will be received in honor of the chief honor after noon.

A banquet will be tendered to the Postmaster-General at Delmonico's tomorrow evening, where our Senators and distinguished representatives will gather about the festive board.

FUNERAL OF A. P. BRAYTON, JR.

Many Floral Tributes
Were Sent to the
Home.

The funeral services of A. P. Brayton Jr., who passed away last Sunday evening after an illness from pneumonia of only a few days, were held at 3 o'clock this afternoon at the residence of his parents, 105 Jackson street, this city.

Early in the afternoon hosts of friends thronged the Brayton home to pay their last respects to the departed one, who had lived in Oakland from infancy and who enjoyed the esteem of everyone for his many noble traits of character. Among the mourners were many from Oakland Lodge of Masons, Atherton Club, Bohemian Club of San Francisco and the Republican alliance, with all of which organizations decision had been arrived at. All were shocked with its sudden taking off.

The services, in accordance with Mr. Brayton's expressed wishes, were simple, yet impressively performed by the Rev. J. K. McLean, president of the Pacific Theological Seminary.

A fervent prayer and a brief eloquent review of his sterling worth as a man at our very own the main features. There was no mist.

The floral tributes, however, were most elaborate, numerous and appropriate.

They were as follows: A beautiful set piece of "The Gates of Adar" was presented by the Remondine Club, of which the deceased was a member. The employees of the Pelton Water Wheel Company sent a water wheel made of roses and sweet peas, from which a spoke was removed. A wreath of roses and ferns, from Mr. and Mrs. George Whenton; Mrs. Judge Stanley, carnations; R. M. Fitzgerald, white lilies; Mrs. McKee's wreath of cut flowers; Mr. and Mrs. Clay Taft and Miss Taft, red roses; Mr. and Mrs. Greenwood, plumes; Mrs. Harry Wadsworth, pink carnations; Mrs. Grace Haynes, pink phlox; Mr. Aecker, white phlox; Mr. and Mrs. A. E. C. LYON MISSING.

E. C. Lyon, a Lorn real estate man, formerly of the firm of Rudolph, Perkins & Lyon, has mysteriously disappeared and his whereabouts are unknown.

Mrs. Lyon reported her husband's strange leave-taking to the police this afternoon. She states that between 12:30 and 2 o'clock early one morning about three weeks ago her husband, who was dressed himself and left his home without a word of warning.

He had recently sold out his interest in the real estate firm, and on the afternoon prior to his departure drew a check for \$800; the money was to be used in paying off a mortgage on a small ranch in the country, but Mrs. Lyon has heard nothing further of her husband.

Mr. Lyon is about 25 years old.

BRANDES TRIAL IS CONTINUED.

The second trial of W. A. Brandes for the murder of his daughter was to have been begun in the Superior Court this morning, but was continued until Tuesday next. There were only ten juries summoned, and this made it apparent that several should be called before a full jury could be secured.

It was decided to discharge the old jury and empanel a new one. The names of those who are to be subpoenaed to report for possible service jurors will be put in another part of this paper.

T. F. CARRITY'S LIFE IS DESPAIRED OF.

For some time past Thomas F. Carrity, the well known attorney of this city, has been unable to attend to his professional business owing to a complication of the cases which has undermined his once vigorous health so rooted in his system that his life is despaired of. He is now receiving all the attention which friends and skilled medical men can give him in a private sanitarium in this city.

TELLS OF WRECK.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. LOUIS, May 14.—Captain McCoy of the steamer City of Clifton, which arrived this morning from the scene of the wreck of the City of Paducah, said:

"At the hour the City of Clifton left the scene of the wreck, five o'clock yesterday morning, the body of Dr. Bell had not been recovered. Miss Gardner, it was then believed, was killed by being struck by a falling trunk. She and her traveling companion, Mrs. Allen and Miss Milmoe, were taken to the hospital. The accident occurred. All but Miss Gardner were rescued through a skylight, clerk Tanslow and his wife were saved by the same means, while Captain Kirkpatrick and Chief Mate Tobe Holl rescued Rabbi Block and Mrs. Block through a hole in the roof. They and Dr. Bell, who was lost, were among the few passengers who had retired. The women were taken in rowboats to Grand Tower.

The passenger's behavior was sensible and there was no panic. The shock in striking the bark did not seem to be great, but every one realized at the time that they were in danger, and all acted coolly.

NOTHING NEW IN
THE SCHOOL MATTER.

There is nothing new to record with regard to perfecting the acceptance of President Dingley's offer to give the city money enough to run the High Schools, provided the city's water bills are paid to date. So far as known the stipulation has not been signed. The matter is in bad shape because Hayes succeeded in incorporating irrelevant matter which he knew would make it objectionable to the Water Company. And the posture of affairs is made worse by the attitude of Auditor Breed, who is opposed to accepting Mr. Dingley's offer. By reason of Hayes and Breed the whole thing may yet fall through and result in closing the schools.

Up to noon City Attorney Johnson received no intelligence from the Water Company's attorneys, and Mr. Dingley did not come over from San Francisco.

Very likely the whole matter will be permitted to rest till after the President's visit. Hayes' persistent efforts to block any amicable arrangement have still further embittered the Councilmen against him.

HAYWARDSPres. Wheeler Makes
the Final Announce-
ment.

BERKELEY, May 14.—The itinerary for President McKinley's visit to the University of California for its commencement exercises on May 14th was today announced by the University authorities.

The President will cross the bay on a revenue cutter, and will come to Berkeley on a special train. From Berkeley station he will be driven to the cinder path, where the exercises are to be held. He will arrive after the audience has all been seated, and after the regents, benefactors, faculty and members of the graduating class have marched down from the library and taken their places on the platform. The exercises will begin about 10 o'clock. Tickets for reserved seats must be presented before 9 A. M., so that four hours the doors will be open, open to the general public, and whoever wishes may then occupy the seats still left vacant in the reserved sections. It is possible that the Pres. Bent's arrival may be slightly delayed, but except on account, the exercises will not be started in beginning.

Upon the conclusion of the commencement exercises the President of the United States and the members of the Cabinet, with their families, will be taken to President Wheeler's house, where they will be entertained luncheon. A number of other distinguished guests will be present.

President Wheeler's guests at luncheon at the home of Mr. and Mrs. Frank M. Watson and a large number of other friends of the University will be guests at the Alumnae luncheon at the Hotel Hall.

The President and his party will leave President Wheeler's house at 2 o'clock and be driven to Oakland. At 2:45 they will arrive at the home of Senator H. R. Revelle, where they will be entertained luncheon. The Oakland Reception Committee will meet the President and the Cabinet at 3:30; the party will leave Senator Revelle's house and be driven to the Oakland High School, where the President will speak briefly. At 4:30 or 4:45 they will leave the High School and drive through the business part of Oakland, will board the revenue cutter for the return journey to San Francisco.

BERKELEY DECORATED.

BERKELEY, May 14.—The arrangements for the reception of President McKinley on Commencement Day have been practically completed, and by today the college town assumes a gala appearance in honor of the occasion. Under the direction of the City's Committee of arrangement has been erected on both sides of Center street, up which the Presidential party will pass to the University. The framework extends in the hollows, with a height of fifteen feet, with the national colors, the remainder of the work being covered with gay streamers and garlands of green boughs. At along the line of the procession, and in fact throughout the town, the boughs have been profusely decorated, while the depot at which the decorated visitors will stop will be specially adorned with green.

The procession itself will be very simple, the only carriages in view besides those of the visitors being those of the members of the town committee. About forty-two troopers from the Pres. will assist the police in restraining the crowd. Colleagues in the church streets, which will not be restricted to enter the town, but will be directed to that on Main street.
